PROFESSIONAL SUMMARY

Computer Science undergraduate with a solid foundation in full-stack development. Proficient in building responsive applications using Next.js, TypeScript, and Supabase. Focused on writing clean, maintainable code and solving technical problems efficiently. Seeking a role where I can contribute to project success while applying modern engineering practices.

EDUCATION

Visayas State University Baybay City, Leyte
Bachelor of Science in Computer Science *Aug 2023 – Present*

SKILLS

Frontend: HTML 5, CSS 3, React, Next.js, Tailwind, Shadcn, Typescript

Backend/Database: Supabase, Firebase PostgreSQL

Tools & Others: Git, GitHub, Figma

PROJECTS

- Whispr** | *Next.js, TypeScript, Supabase, Tailwind CSS* **Dec 2025**
- Developed a hyper-local social platform that connects users within a specific physical radius using geospatial querying.
 - Implemented a privacy-first architecture that enables real-time, anonymous communication without requiring user registration or permanent data storage.
 - Built a responsive using Tailwind CSS, ensuring a seamless experience for on-the-go users.
